They face great danger and will be fighting for their lives, for their friends, and for the world. Join them in their journey and see what they must do to survive. All main series characters will be instructors or will make cameos. All flames will be ignored. Fav and Follow support

The Moon's Children

The Moon's Children

Zach woke up sweating and in a panic as he walked into the author's studio (aka his bedroom) and saw Ali waiting for him

Ali: What's wrong?

Zach: I had the worst nightmare that we were going to reboot one of Soul's stories

Actually that was a demigod dream as I am rebooting my story with new characters (ducks incoming chair) Hey I was given that chair a couple years ago without spending a dime

Zach and Ali: WE ARE BEING USED AS REBOOTS?!

Yes now hush up and do the disclaimer

Both: NO!

A wolf walks up out of nowhere and changes into Arctic, but before he could say anything Zach came out of nowhere

Zach: Who are you?

Arctic: I'm basically the rough draft of you except I have a much more badass name

Arctic: SoulEklipse does not own Percy Jackson or anything related to the series in any way, shape, or form. If he did he wouldn't be broke and writing Fanfiction

## Chapter 1: The Moon Bears a Son (THE REBOOT)

Now before you say anything, I totally could've taken that hamster. Ok let me redo this, my name is Zachary Luno, I am currently 16 years old, and my school's biology teacher didn't realize her hamster was a fucking hell hound. Now there are a couple of people you need to learn about: My girlfriend Ali Gaige, 15 years old, blonde, blue eyes, glasses, dresses like a nerd that just makes her look great in my opinion. My best friend Ryan Summers, also 16, dirty blonde hair, odd green eyes, wears jeans and a t shirt constantly until winter where he adds a jacket. Here's the kicker and ultimate jackass, my brother, Arctic Luno, 17 years old, we look essentially the same: white silvery hair, pale skin that seems to be very healthy for the two. However, Zach has purple eyes while Arctic has silverish gray, Zach wears jeans with silver chains, a muscle shirt, and a hooded jacket while Arctic wears leather pants and jacket with a long sleeve shirt. Anyways we were all in detention in Mrs. Grant's biology class since my brother dragged us into one of his schemes which involved the principal's statue and an insane amount of things you would find in any girl store and let's leave it at that.

The one watching us was Riley Sycamore, a teacher's assistant who was 19 years old and had brown hair and eyes like dirt, he had a limp to his step, but he was in no way slow, he wore brown khaki pants, black dress shoes, a white button down shirt and a tie with a forest theme to it. He had left to go get something from the geometry class downstairs, but that was when the hamster exploded and a jet black hellhound sprang out snarling at us. We all backed away with Ali screaming in fright and that's when it happened. My protective boyfriend instincts activated.

"Nobody gets away with scaring my girlfriend! Not even you, you demonic hamster mutt or whatever you are!" I took the only weapon I had immediately, my necklace of a moon with two sharp ends and with those I stabbed out both of it's eyes... Is what I want to say.

Truth is I leapt and got knocked into a shelf and hit the ground hard. I tried getting up, but that was hard with a massive hamster turned creature from hell pounces you and you just got thrown into a shelf. Then the monster exploded and the most badass teacher's assistant was standing over me holding two bronze knives and had goat legs.

"I knew the janitor was a cyclops, but I never would have thought the hamster would be a hellhound." He muttered to himself as he went to the door and turned to all four of us standing there stunned "Well hurry up I don't have all day!" He said exasperated and we all followed him to his van that on both sides had the message SAVE THE FOREST. SAVE THE WORLD.

We all climbed into the van and drove off heading on over to Long Island. On the way we hit a few speed bumps that exploded into dust once we hit them. After an hour long drive we arrived at a part of the woods that split open and revealed a hill with a large tree at

the top of it. We all climbed out of the van and climbed the hill while another goat man thing brought two people we were all surprised to see. One was my little sister Cass who went to an elementary school down the street of the school of the other surprise. It was Elise who was Ryan's twin and incredibly gifted in art. She goes to some privileged school on the other side of the city. Arctic, Ali and I immediately ran up to Cass who was no more than 12 years old and very vulnerable. She had black hair, but insisted on splashing white dots in it like the night sky with Ali's sparkly hair dye and we all given into it, she has grey eyes that are not as light as my brother's, but they were a silver like tone. She wore a shirt with a bedazzled moon on the front and the Huntress constellation (Zoe's constellation) on the back. Elise was exactly like her brother except she had brown curly hair and dark grey eyes, but like her twin she was attractive or cute or what ever word you wanna use, funny, sometimes lazy, smart, brave, and cannot be torn from her phone. Okay that last on is just her. Besides Ryan, she has two other brothers and a father who tries his very best to take care of them all. We all turn to find one of the goat men already gone and Riley already halfway up the hill as we all raced up there as I place Cass onto my shoulders and carried her up the hill.

As we went down the other side and into what appeared to be a camp we were in awe of the pegasi, the molten lava rock wall, and all the kids decked out in armor and weapons. It was then that they ran into Chiron.

"Ah Riley! I see your mission was a success. I shall call the children to the mess hall and you must bring these six there as well." The centaur told Riley before cantering off and sounding a horn

"Right. Anyways, I am your guardian and a satyr. Now as Chiron said to the mess hall!"

We arrived at the mess hall and my first thought was this 'why is it called a hall if it's just a patio with picnic tables?'

We were walking to the center when some 12 year old girl with auburn hair and silver clothes drops in out of nowhere and stumbled and was about to fall over until I caught her which caused all the other campers to gasp. The 12 year old glared at me and started to yell "You insolent male! I will turn you into a jackalope and the-" she stopped there when she saw my necklace and stared into my purple eyes as she glowed and changed into a beautiful woman in her mid 20s and her auburn hair fell gracefully down her back and her silver clothes were replaced with an elegant dress "Zachary Marcus Luno?" She asked

I looked up at her shell shocked and completely lost and nod my head half cautiously half curiously before being engulfed in a hug which caused more gasps and I soon felt my brother and sister get dragged into the hug "Um Zach. Who is this lady?"

The woman blinked and stared oddly before laughing like it was a funny joke and looked at all three of us smiling "I'm sorry I forgot to introduce myself. I am Artemis. Goddess of the moon, the Hunt, and all maidens. Zachary Marcus, Arctic Blake, and Cassandra Tracie Luno, I am also your mother. There was exactly three seconds and then everybody spat out their drinks.

And there is the first chapter of the reboot. It wasn't so bad now  
was it

Cass flies out of nowhere and tries to tackle Soul but is caught by  
Ryan

Special thanks to The Punk Rock Demigod who sent me Elise in the  
original version of this story

Zach: Wait so we are all in this?

Yes you are

All: YAHOO! PAYDAY BITC-

You aren't paid. I made you.

All: Aww man!

Anyways let me know what you guys think of the reboot

End  
file.
